

SOUTHWESTERN WISCONSIN / CESA 3

REACH BC+ implementation in seven southwestern Wisconsin counties builds ties to the 31 public school districts in Cooperative Educational Service Agency District 3 (CESA 3) and develops local capacity through activities such as:

- ❖ training district staff in introductory and advanced BadgerCare+ topics
- ❖ providing access to outreach materials that all districts can customize to inform families about BadgerCare+ enrollment options
- ❖ creating a local network for technical support to sustain school practices that begin with REACH BC+

ACKNOWLEDGEMENTS

Implementing REACH BC+ in CESA 3 (southwestern Wisconsin) is made possible by the generous support of the *Ira and Ineva Reilly Baldwin Wisconsin Idea*
